Title of the work: Her Identity

Dimension: A2 (42cm X 59.4cm)

Medium: Colour pencil with watercolour on paper

Synopsis:

My inspiration is the incredibly diverse cultures of our Singapore nation. This work is made possible with many strokes and blends of my trusty colour pencil skills. The vibrant colours complement the vital energy and the extravagance of Singapore, showing how the four different races come together as one. Singapore is a Garden City, rich in greenery and biodiversity; this is represented by the tropical details and the National Flower.

With great passion and talent, Si Hua often seeks additional help to improve her art making skills. When she heard about the Visual Arts Competition organized by Bishan Park Secondary School, she was eager to show others what she is capable of. Throughout the whole art making process, she showed commitment and resilience. This is also probably her first time working on a big paper for a dry medium work; nonetheless, she is precise with the details from the colouring strokes to colour relation.
